cardog.app/tools/recalls/jeep/compass/2023

2 recalls listed by Transport Canada for this model year

Visual system

2024338 13 Jun 2024

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Note: For the Grand Cherokee model, this recall affects 2022-2023 Jeep Grand Cherokee and 2021-2023 Grand Cherokee L models. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to update the radio software.

Lights and instruments

2023457 14 Aug 2023

Issue: On certain vehicles, a software problem in the body control module (BCM) could cause the backlight for the instrument cluster display not to work correctly. As a result, you may not be able to see certain information about the vehicle, including the gauges, messages, and tell-tale graphics. Safety Risk: An instrument cluster display that isn't visible could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to update the body control module (BCM) software.

Listed for the model year, not checked against your VIN. Jeep confirms which apply.

Check your VIN with Mopar Canada or call a Jeep dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
