Make	Dodge	Fuel	Flexible Fuel Vehicle (FFV)
Model	Journey	Drive	AWD
Trim	R/T	Maker	CHRYSLER DE MEXICO TOLUCA
Body	Sport Utility Vehicle	Plant	Toluca, State Of Mexico, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/dodge/journey/2012

6 recalls listed by Transport Canada for this model year

Airbag 2017336 7 Jul 2017

On certain vehicles, an electrical short could occur in the steering wheel wiring harness, which could result in an inadvertent deployment of the driver frontal airbag. Unintended airbag deployment, in a non-warranted (non-impact) situation, could startle the driver, which could result in a vehicle crash causing property damage and/or personal injury. In some instances, inadvertent deployment could cause minor injuries to vehicle occupants. Correction: Dealers will inspect the steering wheel wiring and replace it as necessary. A protective covering will also be installed on the wiring harness.

Steering 2016202 5 May 2016

On certain vehicles, the power steering return hose could rupture at engine start up if the vehicle is exposed to extended cold weather conditions. A power steering hose leak could result in the loss of power steering assist and increased steering effort, which depending on the driver's reactions and traffic conditions, could increase the risk of a crash resulting in injury and/or damage to property. Correction: Dealers will replace the return side power steering lines with new parts that are validated for extreme cold weather performance.

Brakes 2015478 16 Oct 2015

Certain vehicles may experience water wicking through the wire harness to the Anti-lock Brake System (ABS) module, which may disable the ABS and/or Electronic Stability Control (ESC) systems. Disabled ABS and/or ESC systems could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will seal the ground eyelets with dual wall heat shrink, repair the wiring harness as required and replace the ABS Module as necessary.

Engine

2015297 2 Jul 2015

On certain vehicles equipped with a 2.4L engine, the engine cover could shift over time due to road vibrations. If the engine cover were to displace, it could result in the cover contacting the exhaust manifold, which could result in a fire, increasing the risk of injury and/or property damage. Correction: Dealers will install an enhanced retaining device to the engine cover.

Brakes

2011400 14 Nov 2011

Certain vehicles may have had their brake system inadvertently filled with contaminated brake fluid during vehicle assembly. This could damage certain brake components, which could increase stopping distance, and result in a crash causing property damage and/or personal injury. Correction: Dealers will replace all brake components that come in contact with hydraulic brake fluid.

Engine

2011351 27 Sep 2011

On certain vehicles equipped with a 3.6L engine, debris in the cylinder block (from the manufacturing process) could cause connecting rod bearing and crankshaft bearing damage. As a result, abnormal engine performance may be noticed, and in some cases the engine could fail. Engine failure would result in lost vehicle propulsion which, in conjunction with traffic and road conditions, and driver reactions, could increase the risk of a crash causing property damage and/or personal injury. Correction: Dealers will replace the engine assembly.

Listed for the model year, not checked against your VIN. Dodge confirms which apply.

§5 DOCUMENTS

Window sticker This VIN reads as model year 1982 or 2012, before our coverage for this manufacturer.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 23 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
