2 recalls listed by Transport Canada for this model year

Lights and instruments

2019388 8 Aug 2019

Issue: On certain vehicles, the front amber side reflex reflector does not meet the requirements of Canadian regulations. Safety Risk: This may cause the vehicle to be less visible to others and could create an increased risk of a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to replace the headlight assemblies.

Engine

2018269 17 May 2018

On certain vehicles, an electronic fault may create a situation where the cruise control cannot be deactivated. If this occurs and the driver does not apply the brakes or shift the transmission to neutral, the vehicle could maintain speed or accelerate without warning, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect the Powertrain Control Module (PCM) software and perform an update as necessary. Note: In the interim, owners are advised not to use the cruise control until the vehicle is repaired.

Listed for the model year, not checked against your VIN. Dodge confirms which apply.

Check your VIN with Mopar Canada or call a Dodge dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
