cardog.app/tools/recalls/ram/3500/2024

3 recalls listed by Transport Canada for this model year

Label	2024548	15 Aug 2024
Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.		
Airbag	2024170	14 Mar 2024
Issue: On certain vehicles, the steering column control module may not have been manufactured properly. As a result, the driver-front airbag may not inflate in a crash. Note: This problem would cause the airbag warning light to turn on. Safety Risk: An airbag that is turned off could increase the risk of injury in a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the steering column control module.		
Lights and instruments	2023636	28 Nov 2023
Issue: On certain vehicles, a problem with the steering control module could cause a turn signal not to turn off or to flash briefly in the opposite direction after making a turn or changing lanes. This problem could also cause the high beams to turn on when a turn signal is activated, or a turn signal to turn on when the high beams are turned on. Safety Risk: Turn signals that stay on or flash in the opposite direction after making a turn or changing lanes could create confusion for others. High beams that turn on when a turn signal is activated could cause reduced visibility and/or glare for oncoming drivers. These issues could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to bring your vehicle to a dealer to update the steering control module software. The dealer will also inspect and, if necessary, replace the module.		

Listed for the model year, not checked against your VIN. Ram confirms which apply.
Check your VIN with Mopar Canada or call a Ram dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
