Body	Pickup	Plant	Saltillo, Coahuila, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ram/3500/2026

3 recalls listed by Transport Canada for this model year

Electrical 2026043 2 Feb 2026

Issue: On certain vehicles, the trailer tow module could fail. As a result, the trailer lights may not work when towing a trailer. This problem could also cause the trailer brakes not to work. Note: This recall also affects certain RAM 3500, 4500 and 5500 chassis cab incomplete vehicles. Safety Risk: Trailer lights that don't work could make the vehicle less visible and cause following drivers not to recognize that the vehicle is braking or intends to turn or change lanes. These issues could increase the risk of a crash. Additionally, a loss of trailer brakes could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the trailer tow module.

Visual system 2025659 1 Dec 2025

Issue: On certain vehicles, a software problem could cause the instrument panel cluster screen not to display when starting the vehicle or while driving. If this happens, you may not be able to see certain information about the vehicle, including the gear selection, warnings, and tell-tales. Note: This recall only affects vehicles equipped with a 12" instrument panel cluster. This recall also affects certain RAM 3500, 4500 and 5500 chassis cab incomplete vehicles. Safety Risk: Warnings, tell-tales and gear selection indicators that don't display could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update or replace the instrument panel cluster, as necessary.

Lights and instruments 2025424 18 Aug 2025

Issue: On certain vehicles, the wrong instrument panel cluster may have been installed during production. As a result, the brake system malfunction and parking brake indicators would display as text instead of symbols. Canadian regulations require certain symbols to be used. Note: This recall only affects vehicles equipped with a 3.5-inch instrument panel cluster. Safety Risk: Incorrect indicators could create confusion and increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the instrument panel cluster.

Listed for the model year, not checked against your VIN. Ram confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
