cardog.app/tools/recalls/ram/2500/2026

7 recalls listed by Transport Canada for this model year

Brakes

2026479 6 Oct 2026

Issue: On certain vehicles, a problem with the steering column control module could cause the electronic stability control (ESC) system not to work. Note: This recall is an expansion of Transport Canada recall no. 2026-192. This problem would cause the electronic stability control (ESC) warning light to turn on. Safety Risk: An electronic stability control system that doesn't work could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the steering column control module.

Visual system

2026396 13 Aug 2026

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall also affects Grand Cherokee L models and Grand Wagoneer L models. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and send a wireless over-the-air software update to eligible vehicles to update the radio software. Alternatively, you may schedule an appointment to have the update performed at an FCA dealership.

Powertrain

2026225 7 May 2026

Issue: On certain trucks, a software problem could allow the vehicle to exceed the speed rating of the tires. If this happens, there could be a loss of control. Safety Risk: A loss of control could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your truck to a dealership to update the powertrain control module software.

Brakes

2026192 16 Apr 2026

Issue: On certain vehicles, a problem with the steering column control module could cause the electronic stability control (ESC) system not to work. Note: This problem would cause the electronic stability control (ESC) warning light to turn on. Safety Risk: An electronic stability control system that doesn't work could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the steering column control module.

Electrical

2026043 2 Feb 2026

Issue: On certain vehicles, the trailer tow module could fail. As a result, the trailer lights may not work when towing a trailer. This problem could also cause the trailer brakes not to work. Note: This recall also affects certain RAM 3500, 4500 and 5500 chassis cab incomplete vehicles. Safety Risk: Trailer lights that don't work could make the vehicle less visible and cause following drivers not to recognize that the vehicle is braking or intends to turn or change lanes. These issues could increase the risk of a crash. Additionally, a loss of trailer brakes could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the trailer tow module.

Visual system

2025659 1 Dec 2025

Issue: On certain vehicles, a software problem could cause the instrument panel cluster screen not to display when starting the vehicle or while driving. If this happens, you may not be able to see certain information about the vehicle, including the gear selection, warnings, and tell-tales. Note: This recall only affects vehicles equipped with a 12" instrument panel cluster. This recall also affects certain RAM 3500, 4500 and 5500 chassis cab incomplete vehicles. Safety Risk: Warnings, tell-tales and gear selection indicators that don't display could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update or replace the instrument panel cluster, as necessary.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
