## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/cadillac/optiq/2027

1 recall listed by Transport Canada for this model year

Structure 2026459 24 Sep 2026

Issue: When using the key fob "express-up" feature to close the front power windows, a software problem could cause the window's automatic reversal system not to work. If this happens, a window may not stop and retract after detecting an object. Safety Risk: A window that doesn't stop and automatically reverse could create a risk of injury. Corrective Actions: General Motors will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the body control module software. Alternatively, you may schedule an appointment to have the update performed at a GM dealership.

Listed for the model year, not checked against your VIN. Cadillac confirms which apply.
Check your VIN with Cadillac Canada or call a Cadillac dealer with your VIN.

### SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 18 live listings, as of 6 Nov 2026
[5] Live public dealer listings on Cardog, as of 6 Nov 2026

## STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
