1 recall listed by Transport Canada for this model year

**Structure** 2021504 10 Aug 2021

Issue: On certain vehicles, a part in the trunk release latch could fail. If this happens, the emergency trunk release located inside the trunk compartment may not work properly. This could prevent a person that is trapped inside the trunk from opening it. Safety Risk: If a person is closed inside the trunk compartment, they may not be able to get out. This could create a risk of injury. Corrective Actions: Kia will notify owners by mail and instruct you to take your vehicle to a dealer to replace the trunk latch assembly.

> Listed for the model year, not checked against your VIN. Kia confirms which apply.
