Body	Hatchback	Plant	Aguascalientes, Aguascalientes, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/nissan/versa-note/2018

3 recalls listed by Transport Canada for this model year

Visual system

2019459 13 Sep 2019

Issue: On certain vehicles, the rear view camera system does not return to the default setting when the transmission is shifted to reverse. This could cause a reduction in rear visibility if a driver had previously adjusted the camera display. Canadian regulations require that the rear view image returns to its original setting each time the camera is turned on. Safety Risk: Reduced rear visibility could increase the risk of a crash.

Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to update the software for the rear view camera.

Electrical

2018440 22 Aug 2018

On certain vehicles equipped with a mechanical key ignition system, a spring in the ignition switch could wear and break. This may allow the ignition key to inadvertently move from the ON position to the accessory (ACC) position while driving, causing the engine to shut off and the airbag system to lose power. The resulting loss of motive power, and change in steering and brake forces could increase the risk of a crash causing injury and/or damage to property. Additionally, in the event of a crash, this may also cause the airbags not to function. Correction: Dealers will inspect the lot number of the ignition switch, and replace it with a new one if it is affected. Note: Until the correction is performed, owners are advised to remove all objects from the ignition key ring, such as additional keys, key chains, etc.

Airbag

2017662 22 Dec 2017

On certain vehicles, the inflator diffuser installed in certain side curtain air bag modules may not have been manufactured correctly. If the vehicle were involved in a crash that warranted side curtain airbag deployment, this could potentially lead to the diffuser detaching. If the diffuser were to detach, it could become a projectile in the occupant compartment, which could result in the side curtain airbag to not fully inflate. Both of these conditions could increase the risk of injury in a crash. Correction: Dealers will replace the side curtain air bag modules.

Listed for the model year, not checked against your VIN. Nissan confirms which apply.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same configuration, 15 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
