1 recall listed by Transport Canada for this model year

Visual system

2026242 20 May 2026

Issue: On a small number of vehicles, a problem with the camera control unit could cause the rearview camera image not to display after shifting into reverse or after activating the parking assistance function. Canadian regulations require the rearview image to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to update the camera control unit software.

Listed for the model year, not checked against your VIN. Volkswagen confirms which apply.

Check your VIN with Volkswagen Canada or call a Volkswagen dealer with your VIN.
