## §2 OBLIGATIONS <sup>[2]</sup>

[cardog.app/tools/recalls/volkswagen/beetle/2019](https://cardog.app/tools/recalls/volkswagen/beetle/2019)

## 2 recalls listed by Transport Canada for this model year

### Airbag 2024649 30 Oct 2024

Issue: On certain vehicles, long-term exposure to high absolute humidity and temperature, combined with high temperature cycling, may eventually degrade the propellant contained in the driver-front airbag. This could cause the airbag to deploy with more force than normal. If the airbag inflator ruptures, fragments could be propelled toward vehicle occupants or cause damage to the airbag assembly, preventing its proper function. Safety Risk: If the vehicle is involved in a crash requiring an airbag deployment, the airbag inflator could rupture and create a risk of injury. Corrective Action: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to replace the driver-front airbag. Note: The Canadian climate results in the propellant degrading slowly. This recall is being conducted as a precaution to address future risk. It is expected that all airbag inflators will be replaced before their function would be affected.

### Lights and instruments 2019067 13 Feb 2019

Issue: On certain vehicles, the brake warning light does not turn on when the electronic brake force distribution system malfunctions. This could cause a driver to be unaware of a problem with the brake system. Safety Risk: A driver that is not aware of a problem with the brake system could lose control of the vehicle during emergency braking. This could cause an increased risk of a crash. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to update the instrument cluster software.

Listed for the model year, not checked against your VIN. Volkswagen confirms which apply.

Check your VIN with Volkswagen Canada or call a Volkswagen dealer with your VIN.

**STATEMENT OF SCOPE**

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
