2 recalls listed by Transport Canada for this model year

Lights and instruments

2026140 25 Mar 2026

Issue: On certain vehicles, a software problem could cause the instrument cluster not to display when the vehicle is started. As a result, you may not be able to see certain information about the vehicle, including the speedometer, gear selection indicators, warning lights and malfunction tell-tales. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle software. The dealer will replace the instrument cluster, as necessary.

Electrical

2026110 11 Mar 2026

Issue: On certain vehicles, the transmission ground wire may not have been connected during production. As a result, wiring or nearby parts could overheat. Safety Risk: Wiring or parts that overheat can create the risk of a fire. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, repair the transmission ground wire.
