## §2 OBLIGATIONS [2]

[cardog.app/tools/recalls/mercedes-benz/gl-class/2014](https://cardog.app/tools/recalls/mercedes-benz/gl-class/2014)

## 2 recalls listed by Transport Canada for this model year

### Engine

2018217 27 Apr 2018

On certain vehicles equipped with the Active Curve System (ACS), the oil in the ACS's reservoir could start foaming under certain dynamic driving situations in combination with an oil level below minimum. The oil foam could leak out of the oil reservoir through the vent holes in the sealing cap and spray onto hot surface components of the exhaust system. This could increase the risk of fire causing injury and/or damage to property. Correction: Dealers will inspect the ACS reservoir for proper oil level and replace the sealing cap with an updated part.

### Airbag

2017145 15 Mar 2017

On certain vehicles, an update provided between the 3rd and 5th of December 2016 to the vehicle control unit may have been incorrectly applied. This could affect the proper function of various safety systems such as airbag deployment sequence, seatbelts recognition status, speed limiter setting and others. These conditions could increase the risk of injury to the occupants in the event of a crash. Correction: Dealers will update the affected control units.

Listed for the model year, not checked against your VIN. Mercedes-Benz confirms which apply.

Check your VIN with Mercedes-Benz Canada or call a Mercedes-Benz dealer with your VIN.

**STATEMENT OF SCOPE**

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
