Trim	4-MATIC	Maker	MERCEDES-BENZ OF NORTH AMERICA, INC.
Body	Sport Utility Vehicle	Plant	Vance, Alabama, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/mercedes-benz/gl-class/2015

4 recalls listed by Transport Canada for this model year

Engine	2018217	27 Apr 2018
On certain vehicles equipped with the Active Curve System (ACS), the oil in the ACS's reservoir could start foaming under certain dynamic driving situations in combination with an oil level below minimum. The oil foam could leak out of the oil reservoir through the vent holes in the sealing cap and spray onto hot surface components of the exhaust system. This could increase the risk of fire causing injury and/or damage to property. Correction: Dealers will inspect the ACS reservoir for proper oil level and replace the sealing cap with an updated part.		
Airbag	2017145	15 Mar 2017
On certain vehicles, an update provided between de 3rd and 5th of December 2016 to the vehicle control unit may have been incorrectly applied. This could affect the proper function of various safety systems such as airbag deployment sequence, seatbelts recognition status, speed limiter setting and others. These conditions could increase the risk of injury to the occupants in the event of a crash. Correction: Dealers will update the affected control units.		
Steering	2016619	13 Dec 2016
On certain vehicles, the axle bolts on the front and/or rear axle may not have been correctly assembled. This could cause the bolts to fracture, which could affect vehicle handling and stability, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the axle bolts.		

Lights and instruments

2014430 30 Sep 2014

Certain vehicles may not comply with the requirements of Canada Motor Vehicle Safety Standard 108 – Lighting System and Retroreflective Devices. The daytime running lights can be deactivated by the driver, contrary to the requirements of the standard. This could reduce vehicle conspicuity during daylight hours, which could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will update vehicle software.

Listed for the model year, not checked against your VIN. Mercedes-Benz confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] Cardog market quote, same model year, 12 live listings, as of 28 Oct 2026

[4] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
