[cardog.app/tools/recalls/toyota/camry-solara/2004](https://cardog.app/tools/recalls/toyota/camry-solara/2004)

## 2 recalls listed by Transport Canada for this model year

**Steering** 2011397 9 Nov 2011

On certain vehicles equipped with a 1MZ-FE or 3MZ-FE V6 engine, the crankshaft pulley may fail. The outer ring may become misaligned, or it may not properly rotate, causing noise and/or illumination of the discharge warning light. In addition, the power steering belt may become detached from the crankshaft pulley, which could result in a sudden increase in steering effort. A loss of steering power assist could result in a crash causing property damage and/or personal injury. Correction: Dealers will inspect and, if necessary, replace the crankshaft pulley.

**Label** 2004042 30 Jan 2004

On certain vehicles, the compliance label does not meet the requirements of CMVSS 120. The label was printed with incorrect Gross Vehicle Weight Rating and Gross Axle Weight Rating data. The incorrect GVWR / GAWR data is 2,380 kg / 1,300 kg. The correct GVWR is 1,900-2,015 kg and the GAWR is 1,035-1,210 kg. Correction: Dealer will replace the compliance label.

Listed for the model year, not checked against your VIN. Toyota confirms which apply.

Check your VIN with Toyota Canada or call a Toyota dealer with your VIN.

## STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
