3 recalls listed by Transport Canada for this model year

Brakes202623314 May 2026

Issue: On certain vehicles, water could leak into the rearview camera and cause the rearview camera image not to display correctly or at all. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to replace the rearview camera.

Lights and instruments202609026 Feb 2026

Issue: On certain vehicles, a software problem could cause the instrument cluster and infotainment system display to go blank while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, warnings, and tell-tales. Additionally, when the transmission is shifted into reverse gear, the rearview camera image may not appear on the display. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to update the radio control module software.

Brakes202447716 Aug 2024

Issue: Under certain conditions, a software problem could cause the antilock braking system (ABS) not to work properly. As a result, the ABS could cause reduced braking or a loss of brakes. Safety Risk: Reduced braking or a loss of brakes can increase the risk of a crash. Corrective Actions: Acura will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the electronic brake control module software. Alternatively, you may schedule an appointment to have the update performed at an Acura dealership.
