3 recalls listed by Transport Canada for this model year

Powertrain

2025691 12 Dec 2025

Issue: On certain vehicles, a problem in the integrated park module could cause the park pawl not to engage when the transmission is shifted to the park (P) position. If this happens, the vehicle could move when it's parked, and the parking brake isn't used. Note: This problem would cause a wrench light and a shift system fault message to be displayed in the instrument cluster. For the Maverick, Escape and Corsair models, this recall only affects vehicles equipped with a 2.5 L hybrid engine. For the F-150 model, this recall only affects Lightning (electric) models. Safety Risk: A parked vehicle that rolls away could create the risk of an injury or a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to update the secondary on board diagnostic module (SOBDMC) software.

Seats and restraints

2025690 12 Dec 2025

Issue: On certain vehicles, the left and right rear seat belt retractors may not have been secured properly. As a result, the seat belts may not work properly in a crash. Safety Risk: A seat belt that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and secure or replace the rear seat belt retractor bolts, as necessary.

Visual system

2025583 24 Oct 2025

Issue: On certain vehicles, the windshield glass may not have been manufactured properly. As a result, air bubbles could appear in the windshield glass. Safety Risk: Air bubbles in the windshield glass could cause reduced visibility and increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the windshield glass.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
