cardog.app/tools/recalls/hyundai/santa-fe/2024

7 recalls listed by Transport Canada for this model year

Seats and restraints	2026170 6 Apr 2026
Issue: On certain vehicles, the lower anchor for the front seat belt(s) may have been damaged during service. As a result, the seat belt(s) could detach in a crash. Note: For the 2026 model year Santa Fe, this recall only affects the Santa Fe hybrid (HEV) model. Safety Risk: A seat belt that detaches in a crash could increase the risk of injury. Corrective Actions: The company will notify owners in writing and advise you to take your vehicle to a dealership to inspect and reinforce the lower seat belt anchors. The seat belt assemblies will be replaced, as necessary.	
Electrical	2025529 2 Oct 2025
Issue: On certain vehicles, the starter motor's terminal cover may not have been installed properly. As a result, the positive terminal could be exposed and contact nearby components in a crash. If this happens, there could be a short circuit. Safety Risk: A short circuit could create the risk of a fire and/or injury. Corrective Actions: Hyundai will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, reinstall the starter motor positive terminal cover.	
Other	2024683 7 Nov 2024
Issue: On certain vehicles, the sunshade switch in the overhead console may not have been designed properly. As a result, the switch may not meet certain requirements of Canadian regulations that exist to reduce the risk of activating the sunshade unintentionally. Note: This recall affects both Santa Fe and Santa Fe Hybrid models. Safety Risk: A sunshade that closes unexpectedly could pinch a person and create a risk of injury. Corrective Actions: Hyundai will notify owners by mail and advise you to take your vehicle to a dealership to replace the sunshade switch knobs in the overhead console.	

Label

2024552 23 Sep 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the compliance label for all new vehicles.

Airbag

2024430 25 Jul 2024

Issue: On certain vehicles, the floor wiring harness may not have been secured properly and could become damaged. As a result, the airbags may not deploy in a crash and/or the airbags could deploy without a crash. Note: This problem would cause the airbag warning light to turn on. This recall affects both the Santa Fe and Santa Fe hybrid models. Safety Risk: An airbag that doesn't work properly could increase the risk of injury in a crash. Additionally, an airbag that deploys without a crash could create a risk of injury. Corrective Actions: Hyundai will notify owners in writing and advise you to take your vehicle to a dealership to inspect and, if necessary, secure the floor wiring harness. If damage is found, the wiring harness will be replaced.

Powertrain

2024404 11 Jul 2024

Issue: On certain vehicles, a software problem could cause the transmission to become damaged. As a result, the vehicle could move when it's parked and the parking brake isn't applied. Safety Risk: A parked vehicle that moves suddenly could create the risk of an injury or a crash. Corrective Actions: Hyundai will notify owners in writing and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the transmission. The dealer will also update the transmission control unit software. To reduce the safety risk, Hyundai recommends that you should always use the parking brake when you park.

1 more on the model-year record, cardog.app/tools/recalls/hyundai/santa-fe/2024

Listed for the model year, not checked against your VIN. Hyundai confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
