## 2 recalls listed by Transport Canada for this model year

**Label** 2024552 23 Sep 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the compliance label for all new vehicles.

**Electrical** 2023147 17 Mar 2023

Issue: Certain vehicles may be equipped with a 4-pin accessory trailer wiring harness kit that could fail. Over time, this could result in a short circuit that can cause the control module to overheat. Note: This recall only affects Hyundai Genuine 4-pin tow hitch wiring harness kits with the part number S2F67-AC401. These kits may have been ordered at the time of a vehicle purchase or purchased separately from a dealer as an aftermarket accessory. Safety Risk: A short circuit can create a fire risk, even while the vehicle is parked and turned off. Corrective Actions: Hyundai will notify owners by mail and instruct you to bring your vehicle to a dealership to inspect the vehicle for a trailer wiring harness kit. If necessary, the dealer will install a 15A fuse and a wire extension kit. Hyundai advises that if your vehicle has a tow hitch harness installed, you should park it outdoors, and away from other vehicles or structures until the recall repairs have been completed.

Listed for the model year, not checked against your VIN. Hyundai confirms which apply.

Check your VIN with Hyundai Canada or call a Hyundai dealer with your VIN.
