3 recalls listed by Transport Canada for this model year

Fuel system

2025637 18 Nov 2025

Issue: On certain vehicles, the check valve for the purge control system could wear and cause the fuel tank to expand. As a result, the fuel tank could contact hot components and fuel could leak. Note: This recall only affects certain vehicles equipped with a 1.6 L turbocharged engine. This safety recall replaces emissions recall no. ECR-H0003-24-005 (Hyundai recall no. C0566). Vehicles that were repaired under that recall also require this repair. Safety Risk: A fuel leak can create the risk of a fire. Corrective Actions: Hyundai will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the check valve and update the electronic control unit (ECU) software. The dealer will also inspect the fuel tank and surrounding components and repair them, as necessary.

Structure

2022143 28 Mar 2022

Issue: On certain vehicles, a part in the trunk release latch could fail. If this happens, the emergency trunk release located inside the trunk compartment may not work properly. This could prevent a person that is trapped inside the trunk from opening it. Safety Risk: If a person is closed inside the trunk compartment, they may not be able to get out. This could create a risk of injury. Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealer to inspect trunk latch and, if necessary, replace the trunk latch base.

Other

2020156 9 Apr 2020

Issue: On certain vehicles, there could be an error in the software that controls the Remote Smart Parking Assist (RSPA) feature. This error could cause the vehicle to continue to move in its last commanded direction, even if a system malfunction is detected. Safety Risk: A malfunction of the Remote Smart Parking Assist could increase the risk of a crash and injury to bystanders. Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealer to update the RSPA software.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
