## §2 OBLIGATIONS <sup>[2]</sup>

[cardog.app/tools/recalls/lexus/tx/2024](https://cardog.app/tools/recalls/lexus/tx/2024)

### 1 recall listed by Transport Canada for this model year

Visual system      2025469    11 Sep 2025

Issue: On certain vehicles, a software problem could cause the combination meter in the instrument panel not to display when the vehicle is started. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, warning lights and malfunction tell-tales. Note: This recall only affects vehicles equipped with a 12.3-inch display. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to update the combination meter software. Alternatively, certain eligible vehicles will be sent a wireless over-the-air software update, which you can install yourself. For certain vehicles, the dealer will also inspect and, if necessary, replace the combination meter.

Listed for the model year, not checked against your VIN. Lexus confirms which apply.  
Check your VIN with Lexus Canada or call a Lexus dealer with your VIN.

**STATEMENT OF SCOPE**

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
