### 3 recalls listed by Transport Canada for this model year

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |         |             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|-------------|
| Engine                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 2026331 | 8 Jul 2026  |
| Issue: On certain vehicles, the engine starter may not have been manufactured properly. As a result, the starter could overheat. Note: This recall is an expansion of Transport Canada recall no. 2026-040. Safety Risk: A starter that overheats can create the risk of a fire. Corrective Actions: To reduce the safety risk, BMW recommends not using the remote start function and not leaving the vehicle unattended with the engine running until the recall repairs have been completed. BMW will notify owners by mail and advise you to take your vehicle to a dealership to replace the engine starter. |         |             |
| Label                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 2024544 | 15 Aug 2024 |
| Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.                                                                                                             |         |             |
| Steering                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 2023614 | 16 Nov 2023 |
| Issue: On certain vehicles, the steering gear may not have been manufactured properly. As a result, the steering gear could fail and cause a loss of steering control. Safety Risk: A loss of steering control could create the risk of a crash. Corrective Actions: BMW will notify owners by mail and advise you to take your vehicle to a dealership to replace the steering gear.                                                                                                                                                                                                                             |         |             |

Listed for the model year, not checked against your VIN. BMW confirms which apply.

SOURCES

- [1] Cardog identity register, decoded from the VIN
- [2] Transport Canada recall database, listed for the model year
- [3] NHTSA recall records (United States), listed for the model year
- [4] Cardog market quote, same configuration, 163 live listings, as of 28 Oct 2026
- [5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
