2 recalls listed by Transport Canada for this model year

Label 2012129 12 Apr 2012

Certain vehicles fail to conform to Canada Motor Vehicle Safety Standards. Specifically, the compliance label does not indicate the wheel rim size, as required by the Standard. Correction: Due to the inconsequential nature of this non-compliance, no action will be taken.

Brakes 2005237 16 Aug 2005

On certain vehicles, the brake line support bracket within the front left wheel well may not have been spot welded according to specification and could loosen. If this happened, the front left brake hose could rub/chafe against the wheel well. Over time, the hose could become damaged to the point where a loss of brake fluid could occur. Correction: Dealers will secure the bracket using rivets.
