3 recalls listed by Transport Canada for this model year

Label	2024544	15 Aug 2024
Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.		
Engine	2024468	13 Aug 2024
Issue: On certain vehicles, fluid from the positive crankcase ventilation (PCV) system could leak on the intake air hose. As a result, the fluid could enter the electrical connector for the water pump and cause a short circuit. Safety Risk: A short circuit can create the risk of a fire, even while the vehicle is parked and turned off. Corrective Actions: To reduce the safety risk, BMW advises you to park your vehicle outdoors and away from other vehicles or structures until the recall repairs are completed. BMW will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the water pump and electrical connector. The dealer will also install a shield on the connector.		
Seats and restraints	2016242	20 May 2016
On certain vehicles, the lower anchor bars that are used for installing child seats using the European-ISOFIX-type rigid-style connector may become damaged during vehicle operation. If the lower anchorage bar(s) were to become damaged, this would increase the risk of injury to a child seated in a child seat using this style of connector if involved in a crash. Correction: Dealers will weld a reinforcing bracket to the lower anchor bars and the vehicle body. Note: Child restraint systems using LATCH-type flexible style connectors, which reflect the vast majority of child restraint systems used in Canada, do not cause this issue.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
