### 1 recall listed by Transport Canada for this model year

#### Brakes

2024547 20 Sep 2024

Issue: On certain hybrid vehicles, a software problem could cause a sudden change in brake pedal feel and travel when the brakes are applied during a turn. This could cause temporary reduced braking. Safety Risk: Reduced braking can cause extended stopping distances and increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your vehicle to a dealer to update the skid control ECU software.

Listed for the model year, not checked against your VIN. Toyota confirms which apply.

Check your VIN with Toyota Canada or call a Toyota dealer with your VIN.
