Issue: On certain vehicles, the power liftgate strut(s) may not have been manufactured properly. As a result, the strut(s) could separate and the liftgate could drop suddenly. Safety Risk: A liftgate that drops suddenly could increase the risk of injury. Corrective Actions: To reduce the safety risk, Volvo recommends not to use the power liftgate function until the recall repairs are completed. Volvo will notify owners by mail and advise you to take your vehicle to a dealership to replace the power liftgate struts.
