Trim	Not in the decode	Maker	TESLA, INC.
Body	Sport Utility Vehicle	Plant	Fremont, California, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/tesla/model-y/2024

3 recalls listed by Transport Canada for this model year

Visual system

2025002 7 Jan 2025

Issue: On certain vehicles, a software problem could cause the computer circuit board to short circuit. If this happens, the rearview camera image may not display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Tesla has released an over-the-air software update to fix this problem. Tesla will notify owners by email. Tesla will also identify vehicles in which the computer circuit board experienced a short circuit, or damage that could lead to a short circuit, prior to the release of software versions 2024.44.25.3, 2024.45.25.6 or a later release. If your vehicle is identified, you will be advised to contact Tesla Service to replace the car computer.

Electrical

2024427 25 Jul 2024

Issue: On certain vehicles, the hood latch assembly could fail and cause the unlatched hood warning not to display on the instrument panel. As a result, you may not be aware that the hood isn't latched properly. If this happens, the hood could open suddenly while driving. Safety Risk: A hood that opens suddenly while driving can block the driver's view and increase the risk of a crash. Corrective Actions: Tesla will notify affected owners by email. Tesla has released an over-the-air software update to fix this issue. There is no further action required if your vehicle has software release 2024.20.3 or a later release.

Lights and instruments

2024283 21 May 2024

Issue: A previous over-the-air (OTA) software update could cause the vehicle not to display the correct visual warning indicators when there are problems with the brake system or when the parking brake is applied. As a result, the BRAKE, PARK, and antilock brake system (ABS) visual indicators would display as text instead of symbols. Safety Risk: While there is a low risk to safety, Canadian regulations require visual warnings to use common symbols, instead of words, to avoid driver confusion. Corrective Actions: Tesla will notify affected owners by email. Tesla has released an over-the-air software update to fix this problem. There is no further action required if your vehicle has software release 2024.3.25, 2024.14.5, or a release later than 2024.14.5.

Listed for the model year, not checked against your VIN. Tesla confirms which apply.
Check your VIN with Tesla or call a Tesla dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 16 live listings, as of 23 Nov 2026

[5] Live public dealer listings on Cardog, as of 23 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
