2 recalls listed by Transport Canada for this model year

Brakes 2019562 8 Nov 2019

Issue: On certain vehicles, the brake vacuum pump may fail. This can cause a hard brake pedal and an increase in brake pedal effort. If the brake vacuum pump fails, the brake warning light will turn on and an audible warning will sound. Safety Risk: A sudden increase in brake pedal effort could lead to an increase in stopping distance. This could increase the risk of a crash. Corrective Actions: Mitsubishi will notify owners by mail and instruct you to take your vehicle to a dealer to install a new brake vacuum pump.

Airbag 2017616 11 Dec 2017

On certain vehicles, long-term exposure to high absolute humidity and temperature, combined with high temperature cycling, could eventually degrade the propellant contained in the passenger frontal airbag. This could cause the airbag to deploy with more force than normal. As a result, if the vehicle were involved in a collision that warrants airbag deployment, fragments could be propelled toward vehicle occupants, and the airbag assembly could be damaged, preventing proper function. These issues could increase the risk of injury. Correction: Dealers will replace the passenger frontal airbag inflator. Note: Canadian climate results in the propellant degrading slowly. The recall is being conducted as a precaution to address future risk, and is expected to replace airbag inflators before their function would be affected.

Listed for the model year, not checked against your VIN. Mitsubishi confirms which apply.

Check your VIN with Mitsubishi Canada or call a Mitsubishi dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same model year, 2 live listings, as of 27 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 27 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
