§1 IDENTITY [1]

Model year	2016	Engine	3.0 L, 6 cylinders
Make	Mitsubishi	Fuel	Gasoline
Model	Outlander	Drive	4WD
Trim	GT	Maker	Mitsubishi Motors Corporation (MMC)
Body	Sport Utility Vehicle	Plant	Okazaki, Aichi, Japan

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/mitsubishi/outlander/2016

8 recalls listed by Transport Canada for this model year

Structure 2025405 6 Aug 2025

Issue: On certain vehicles, water could enter the tailgate struts and cause them to corrode. If this happens, the struts could fail, and the tailgate could drop suddenly. Safety Risk: A tailgate that drops suddenly could increase the risk of injury. Corrective Actions: Mitsubishi will notify owners by mail and advise you to take your vehicle to a dealership to replace the tailgate struts.

Label 2024554 19 Sep 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words and abbreviations listed on the label for "TIRES", "RIMS", "WITH", "FR" and "RR" and appear in English only, when they should be listed as "TIRES/PNEUS", "RIMS/JANTES", "WITH/AVEC", "FR/AVT" and "RR/ARR". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Mitsubishi has corrected the compliance label for all new vehicles.

Brakes 2020579 27 Nov 2020

Issue: On certain vehicles, the parking brake operating shaft in the rear brake caliper could rust and become stuck. If this happens, the parking brake may not work properly. As a result, the brakes could drag or parking brake performance could be reduced. If the vehicle is not left in in gear when it is parked, it could roll away. Note: This is an expansion of recall SR-18-002 (Transport Canada Recall No. 2018-053). Safety Risk: A parked vehicle that rolls away could create the risk of an injury or a crash. Corrective Actions: Mitsubishi will notify owners by mail and instruct you to take your vehicle to a dealer to replace the rear brake calipers.

Seats and restraints

2020317 14 Jul 2020

Issue: On certain vehicles, the seat belt buckle for the right seat in the second-row could be damaged when the seats are folded down. This can cause the seat belt buckle cover to come off. If this happens, the seat belt may not latch properly. Safety Risk: A seat belt that does not latch properly could create an increased risk of injury in a crash. Corrective Actions: Mitsubishi will notify owners by mail and instruct you to take your vehicle to a dealer to modify the center seat belt buckle in the second seating row. A warning label will also be attached to the right seat base and additional instructions will be added to the owner's manual.

Brakes

2018053 26 Jan 2018

On certain vehicles, insufficient rust prevention to the parking brake shaft and insufficient sealing performance of the rear brake caliper boot could allow water to penetrate inside these components causing corrosion. As a result, the parking brake shaft may become stuck causing brake dragging and/or decreased parking brake performance. Additionally, the automatic adjuster for the brake pad clearance of the rear brake caliper with the built-in parking brake may not work correctly. These conditions could lead to a vehicle rollaway, which would increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect and repair the rear brakes as necessary.

Engine

2017475 29 Sep 2017

On certain vehicles, defective electrical relays may have been installed in the power distribution center. This could cause various electrical circuits to fail, potentially resulting in engine stalling, reduced engine power, or loss of engine cooling fan function potentially resulting in engine overheating. These issues could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace affected relay(s) with updated parts.

2 more on the model-year record, cardog.app/tools/recalls/mitsubishi/outlander/2016

Listed for the model year, not checked against your VIN. Mitsubishi confirms which apply.

Check your VIN with Mitsubishi Canada or call a Mitsubishi dealer with your VIN.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 27 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
