2 recalls listed by Transport Canada for this model year

Fuel system

2021466 29 Jul 2021

Issue: On certain vehicles, the low-pressure fuel pump could fail. If this happens, then engine may run rough or may not start and the check engine light may turn on. This could also result in a sudden loss of engine power while driving. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Subaru will notify owners by mail and instruct you to take your vehicle to a dealer to replace the fuel pump.

Visual system

2018750 31 Dec 2018

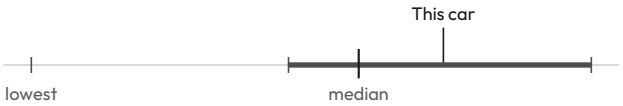

Certain vehicles equipped with a built-in navigation system may not comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS 111) - Mirrors and Rear Visibility Systems. A software issue could prevent the centre display screen from turning on properly when the vehicle is started. If this occurs, the rearview image may not be displayed when the vehicle is put in reverse, which could reduce a driver's rear visibility. Correction: Dealers will reprogram the head unit software.
