2023484 31 Aug 2023

Issue: On certain vehicles, the rear turn signals may suddenly turn off if a bright light (such as bright sunlight) shines directly on them. Safety Risk: Turn signals that don't work properly may cause a person not to recognize when a driver intends to turn or change lanes. Hazard lights that don't work could make the vehicle less visible. Both could increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your vehicle to a dealership to replace both rear combination lamp assemblies.

Listed for the model year, not checked against your VIN. Toyota confirms which apply.
