## 2 recalls listed by Transport Canada for this model year

**Label** 2024546 15 Aug 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Subaru has corrected the compliance label for all new vehicles.

**Brakes** 2019104 1 Mar 2019

Issue: On certain vehicles, the brake lamp switch could fail. This would cause the brake lamps not to turn on when the brakes are applied. Depending on the model, this could cause an inability to shift from park or to start using the push-button ignition. This may also cause problems with the following: anti-lock brake system (ABS), vehicle dynamics control (VDC), and/or Eyesight system. Safety Risk: If the brake lights do not work, a following driver may not to recognize that a vehicle ahead is braking, increasing the risk of crash. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to have the brake lamp switch replaced.

Listed for the model year, not checked against your VIN. Subaru confirms which apply.
