3 recalls listed by Transport Canada for this model year

Label 2024546 15 Aug 2024

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Subaru has corrected the compliance label for all new vehicles.

Fuel system 2021466 29 Jul 2021

Issue: On certain vehicles, the low-pressure fuel pump could fail. If this happens, then engine may run rough or may not start and the check engine light may turn on. This could also result in a sudden loss of engine power while driving. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Subaru will notify owners by mail and instruct you to take your vehicle to a dealer to replace the fuel pump.

Airbag 2019492 4 Oct 2019

Issue: On certain vehicles, the passenger occupant detection system (ODS) may malfunction. This could cause the airbag system to turn off the passenger-front airbag even when a passenger is seated. Safety Risk: An airbag that is turned off could increase the risk of injury to a passenger in a crash. Corrective Actions: The company will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the ODS sensor mat harness. It will be replaced if necessary.

Listed for the model year, not checked against your VIN. Subaru confirms which apply.
