3 recalls listed by Transport Canada for this model year

Powertrain

2024362 21 Jun 2024

Issue: On certain vehicles, the driveshaft may not have been manufactured properly. As a result, the driveshaft could break and cause a loss of power to the wheels. Additionally, if the vehicle is parked and the parking brake isn't applied, the vehicle could roll away. Note: This recall only affects two-wheel-drive (2WD) models. Safety Risk: A loss of power to the wheels could increase the risk of a crash. A parked vehicle that rolls away could also create the risk of an injury or a crash. Corrective Actions: Nissan will notify owners by mail and advise you to take your vehicle to a dealership to replace the driveshaft.

Steering

2016296 10 Jun 2016

On certain vehicles, a combination of low battery voltage at engine start up (~7 volts) and the vehicle being parked with the wheels turned could cause an error in the Direct Adaptive Steering ECU. This could cause the steering wheel to be off centered and the VDC warning lamp to illuminate. If operated this way, this could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will update the Direct Adaptive Steering ECU.

Seats and restraints

2016179 25 Apr 2016

On certain vehicles, a defect in the occupant classification system could allow an adult sitting in the front passenger seat to be classified as a child or an “empty seat”. This would suppress the airbag, which could increase the risk of injury in a crash. Correction: For affected Altima, Maxima, Murano, Rogue and Sentra vehicles, dealers will reprogram the airbag control unit and the occupant classification system control unit. For affected Leaf, NV200, Pathfinder, Q50 and JX35/QX60 vehicles, dealers will replace the occupant classification system electronic control unit.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
