Body	Sedan	Plant	Tochigi Plant, Kawachi-Gun, Tochigi, Japan

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/infiniti/q50/2018

3 recalls listed by Transport Canada for this model year

Powertrain

2024362 21 Jun 2024

Issue: On certain vehicles, the driveshaft may not have been manufactured properly. As a result, the driveshaft could break and cause a loss of power to the wheels. Additionally, if the vehicle is parked and the parking brake isn't applied, the vehicle could roll away. Note: This recall only affects two-wheel-drive (2WD) models. Safety Risk: A loss of power to the wheels could increase the risk of a crash. A parked vehicle that rolls away could also create the risk of an injury or a crash. Corrective Actions: Nissan will notify owners by mail and advise you to take your vehicle to a dealership to replace the driveshaft.

Visual system

2019459 13 Sep 2019

Issue: On certain vehicles, the rear view camera system does not return to the default setting when the transmission is shifted to reverse. This could cause a reduction in rear visibility if a driver had previously adjusted the camera display. Canadian regulations require that the rear view image returns to its original setting each time the camera is turned on. Safety Risk: Reduced rear visibility could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to update the software for the rear view camera.

Fuel system

2017375 27 Jul 2017

On certain vehicles, and incorrect fuel pressure map was used in the Fuel Pump Control Module (FPCM) software as a result, the pressure regulator may fail to open to send fuel from the sub tank to the main tank. Under certain conditions, the fuel level in the main tank could be too low for the fuel pump to send fuel to the engine resulting in a loss of motive power, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will update the software for the Fuel Pump Control Module.

Listed for the model year, not checked against your VIN. Infiniti confirms which apply.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 10 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
