1 recall listed by Transport Canada for this model year

Brakes

2018064 1 Feb 2018

On certain vehicles, the brake master cylinder may contain a defect which could allow brake fluid to leak from the master cylinder into the brake booster. This would affect brake system function, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will install a revised master cylinder. Note: Only Juke Nismo RS vehicles are affected.

Listed for the model year, not checked against your VIN. Nissan confirms which apply.
