Body	Crossover Utility Vehicle	Plant	Tochigi, Kaminokawa, Japan

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/infiniti/fx50/2011

2 recalls listed by Transport Canada for this model year

Engine 2011436 20 Dec 2011

On certain vehicles, the engine oil cooler stud (onto which the oil filter is mounted) could fail. This could cause an engine oil leak, which could illuminate the instrument panel's engine oil warning lamp. Abnormal noise and rough engine performance may also be noticed and, in the worst case, the engine could fail and stop suddenly while the vehicle is in motion. Engine failure would result in lost vehicle propulsion which, in conjunction with traffic and road conditions, and the driver's reactions, could increase the risk of a crash causing property damage and/or personal injury. Correction: Dealers will replace the engine oil cooler connector stud.

Lights and instruments 2010383 3 Nov 2010

On certain vehicles, the filament in the bulb of the Daytime Running Lamps (DRL) may burn out due to a shorter lifespan than expected. A loss of DRL illumination could render the vehicle less visible to other motorists and to pedestrians during daylight hours, possibly resulting in a crash causing property damage and/or personal injury. Correction: Dealers will replace the Daytime Running Lamp bulbs with a longer life type bulb.

Listed for the model year, not checked against your VIN. Infiniti confirms which apply.

Check your VIN with Infiniti Canada or call a Infiniti dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
