1 recall listed by Transport Canada for this model year

Steering 2017148 17 Mar 2017

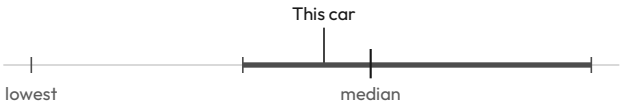

On certain vehicles, the high pressure power steering hose could separate due to an incorrect clamp. If the hose were to separate, it could cause a power steering fluid leak, resulting in increased steering effort and potential for a fire in the presence of an ignition source. This could increase the risk of injury and/or damage to property. Correction: Dealers will install a power steering high pressure hose kit.

Listed for the model year, not checked against your VIN. Nissan confirms which apply. Check your VIN with Nissan Canada or call a Nissan dealer with your VIN.
