## 3 recalls listed by Transport Canada for this model year

### Visual system

2025594 30 Oct 2025

Issue: Under certain conditions, a software problem could cause the rearview camera image to freeze or not to display. If this happens, the rearview image may not display when the transmission is shifted into reverse. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall only affects certain vehicles equipped with a panoramic view monitor system. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: The company will notify owners in writing and advise you to take your vehicle to a dealership to update the parking assist ECU software.

### Visual system

2025469 11 Sep 2025

Issue: On certain vehicles, a software problem could cause the combination meter in the instrument panel not to display when the vehicle is started. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, warning lights and malfunction tell-tales. Note: This recall only affects vehicles equipped with a 12.3-inch display. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to update the combination meter software. Alternatively, certain eligible vehicles will be sent a wireless over-the-air software update, which you can install yourself. For certain vehicles, the dealer will also inspect and, if necessary, replace the combination meter.

### Visual system

2024340 14 Jun 2024

Issue: On certain vehicles, the front and/or rearview camera case(s) may not have been welded properly. Over time, water could leak into the camera(s) and cause a short circuit. If this happens, the front and/or rearview camera image may not display correctly or at all. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the front and/or rearview camera(s).

Listed for the model year, not checked against your VIN. Toyota confirms which apply.  
Check your VIN with Toyota Canada or call a Toyota dealer with your VIN.

**STATEMENT OF SCOPE**

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
