Body	Sport Utility Vehicle	Plant	Toyota City, Aichi, Japan

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/toyota/venza/2021

2 recalls listed by Transport Canada for this model year

Brakes

2022179 13 Apr 2022

Issue: Under certain conditions, the vehicle stability control (VSC) system may not switch on when the ignition is restarted. This can happen if the driver manually turns off the VSC, depresses the brake pedal, and then turns off and restarts the vehicle while continuously depressing the brake pedal. Canadian regulations require the stability control system to be active each time that you start the vehicle. Safety Risk: A stability control system that is switched off could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct you to take your vehicle to a dealer to update the skid control ECU software.

Lights and instruments

2022021 26 Jan 2022

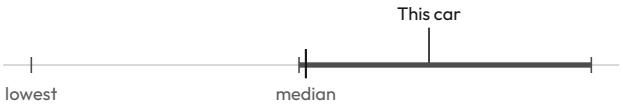

Issue: On certain vehicles, the rear turn signal bulbs could short circuit. If this happens, the turn signals and hazard lights may dim or may not work properly. Note: This problem can cause the turn signal indicator on the instrument panel to flash quickly. Safety Risk: Turn signals that do not work properly could cause a following driver not to recognize that a vehicle ahead intends to turn. Hazard lights that do not work properly could make the vehicle less visible. This could increase the risk of a crash. Corrective Actions: Toyota will notify owners by mail and instruct you to bring your vehicle to a dealer to replace both rear turn signal bulbs. The dealer will also replace the rear turn signal lamp assemblies, if necessary.

> Listed for the model year, not checked against your VIN. Toyota confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 11 live listings, as of 22 Nov 2026
[5] Live public dealer listings on Cardog, as of 23 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
