§2 OBLIGATIONS ^[2]

cardog.app/tools/recalls/toyota/fj-cruiser/2011

2 recalls listed by Transport Canada for this model year

Seats and restraints

2013084 15 Mar 2013

On certain vehicles, due to insufficient strength of the access door (rear door) panels, cracks may develop if the access doors are repeatedly and forcefully closed over an extended period of time. As the driver and front passenger seat belt retractors are mounted in the access door panels, if cracks occur in the panel around the lower retractor anchor, the seat belt retractors could become detached. This could increase the risk of injury to an occupant in the event of a crash. Correction: Dealers will inspect the rear door panels for cracks or separation. Depending on the results of the inspection, the dealer will repair as necessary.

Brakes

2012353 17 Oct 2012

On certain vehicles equipped with a Toyota Racing Development (TRD) High-Performance Brake Kit sold and installed by Toyota dealerships, the clearance between the front outer brake tubes and the TRD 16-inch 6-spoke alloy wheels is small. If wheel weights are installed in an incorrect location, the outer brake tubes could be damaged. This could cause a brake fluid leak which could result in a loss of front brake function. In conjunction with traffic and road condition, and the driver's reactions, this could increase the risk of a crash causing property damage and/or personal injury. Correction: Dealers will replace both front outer brake tubes with updated versions.

Listed for the model year, not checked against your VIN. Toyota confirms which apply.

Check your VIN with Toyota Canada or call a Toyota dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same model year, 1 live listings, as of 28 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 28 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
