Trim	LT	Maker	GENERAL MOTORS LLC
Body	Sedan	Plant	Bupyeong, Incheon, South Korea

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/pontiac/wave/2007

4 recalls listed by Transport Canada for this model year

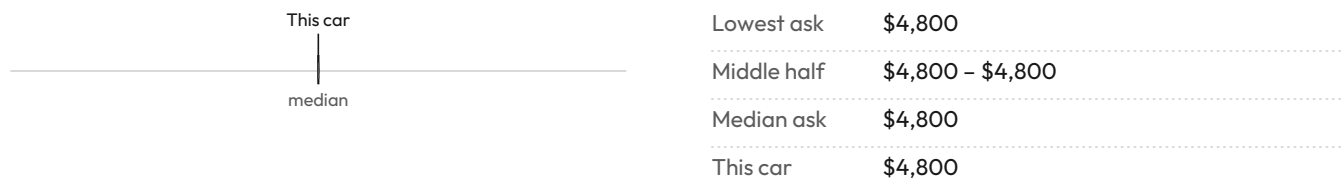

Electrical	2014185	22 May 2014
On certain vehicles, heat generated within the daytime running light (DRL) module could cause the module to melt, potentially resulting in a fire, which may result in injury and/or property damage. Correction: Dealers will inspect, and if necessary, replace the DRL module.		
Lights and instruments	2012274	13 Aug 2012
On certain vehicles, the Daytime Running Lamp (DRL) module may fail, causing one or more of the following conditions: the DRLs may flicker but remain illuminated; the DRL indicator in the instrument panel may flash; the DRLs may remain illuminated after the vehicle is turned OFF; the DRLs may cease to function and the DRL indicator in the instrument panel will turn OFF. A loss of DRL illumination could render the vehicle less visible to other motorists and pedestrians during daylight hours, which could result in a crash causing property damage and/or personal injury. Correction: Dealers will replace the DRL module, if the above condition exists, for a period of up to 10 years or 240,000 km from first vehicle registration.		
Label	2009354	17 Dec 2009
On certain vehicles, the date of manufacture on the label may have been printed in the "Month/Day" format vs. "Month/Year" as required by Canada Motor Vehicle Safety Standard. This situation poses no safety risk and was corrected at the manufacturing plant on October 30, 2006.		
Fuel system	2006266	17 Oct 2006
Certain vehicles equipped with a 1.6L engine may develop a fuel leak as a result of fuel line rupture in a frontal crash test. In addition, the crash damage caused four short circuits in the fuse block, the combination of which allowed the fuel pump to continue running, allowing fuel to be pumped onto the ground. Fuel leakage in the presence of an ignition source could result in a fire. Correction: Dealers will replace the fuse block and install a redesigned section of fuel line.		

Listed for the model year, not checked against your VIN. Pontiac confirms which apply.

|---|--|
| [1] Cardog identity register, decoded from the VIN | [3] Cardog market quote, same model year, 1 live listings, as of 26 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [4] Live public dealer listings on Cardog, as of 26 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
