2 recalls listed by Transport Canada for this model year

Visual system

2026402 20 Aug 2026

Issue: On certain vehicles, moisture could enter the rearview camera and could cause the rearview camera image not to display correctly or at all. Note: This recall only affects vehicles equipped with a standard rearview camera. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the rearview camera.

Lights and instruments

2023599 6 Nov 2023

Issue: On certain vehicles, a software problem could cause the instrument panel to display a black screen. If this happens, it could create a distraction for the driver, and warnings, tell-tales and gauges would not display. Safety Risk: A driver that is distracted and/or warnings, tell-tales, and gauges that don't display could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to update the software for the virtual cockpit unit module.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
