4 recalls listed by Transport Canada for this model year

Airbag 2016439 9 Sep 2016

On certain vehicles, the sensing and diagnostic module (SDM), which controls airbag and pretensioner deployment, contains a software defect which may prevent the deployment of frontal airbags and pretensioners in certain circumstances. Failure of frontal airbags and seatbelt pretensioners to deploy in a crash (when warranted) could increase the risk of injury. Correction: Dealers will reflash the SDM with new software. In vehicles with any previous deployment events recorded in the SDM, the dealers will replace the existing SDM with a new SDM containing the latest software. Note: This recall affects 2014-2017 model year Sierra LD/Silverado LD models and 2015-2016 model year Sierra HD/Silverado HD model vehicles.

Seats and restraints 2014315 29 Jul 2014

On certain vehicles, the hook bracket assembly for either front seat may have been manufactured with an incomplete weld. If the weld is incomplete and the assembly is exposed to a high load condition, the hook may separate from the seat track. This could increase the risk of occupant injury during a crash. Correction: Dealers will inspect the weld, and if necessary, replace the lower seat track.

Accessories 2014274 3 Jul 2014

On certain vehicles, insulation on the engine block heater power cord may become damaged if the cord is handled during very cold days (temperatures below -25C). This could create an electrical shock hazard, which could result in personal injury. Correction: Dealers will replace the block heater cord.

Certain vehicles may not comply with the requirements of Canada Motor Vehicle Safety Standard 115 – Vehicle Identification Number. The character height is insufficient for the vehicle identification number located on the front dashboard cover. Correction: No corrective recall action is required as this technical non-compliance is deemed to be non-safety related.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
