3 recalls listed by Transport Canada for this model year

Other

2025636 17 Nov 2025

Issue : Hyundai Auto Canada is conducting an extended warranty campaign for certain vehicles as water could enter the horn assembly and cause the horn's electrical contacts to corrode. As a result, the horn may not work properly or at all. Safety risk: A horn that doesn't work properly could prevent a driver from warning others of a danger and create an unsafe situation. Corrective Actions: To reduce the safety risk, Hyundai advises you to test the horn regularly. Hyundai will notify owners in writing and advise you to contact a dealership if your horn doesn't work properly. Hyundai will provide an extended warranty of 10 years/200 000 km to replace the horn for free if it fails.

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the compliance label for all new vehicles.

Engine

2024255 30 Apr 2024

Issue: On certain vehicles, the exhaust gas recirculation (EGR) valve may not have been manufactured properly. As a result, the EGR valve could short circuit and cause a loss of power to the wheels. Safety Risk: A sudden loss of power to the wheels could increase the risk of a crash. Corrective Actions: Hyundai will notify owners in writing and advise you to take your vehicle to a dealership to replace the EGR valve.
