## §2 OBLIGATIONS <sup>[2]</sup>

[cardog.app/tools/recalls/genesis/g70/2023](https://cardog.app/tools/recalls/genesis/g70/2023)

### 1 recall listed by Transport Canada for this model year

#### Fuel system

2024403 11 Jul 2024

Issue: On certain vehicles, the high-pressure fuel pump could fail. If this happens, the engine may run rough and the check engine light may turn on. This could also cause a sudden loss of engine power while driving. Note: For the Elantra, Kona and Veloster models, this recall only affects the N performance versions. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Hyundai will notify owners by mail and advise you to take your vehicle to a dealership to update the engine control module software. The high-pressure fuel pump will be replaced, if necessary.

Listed for the model year, not checked against your VIN. Genesis confirms which apply.

Check your VIN with Genesis Canada or call a Genesis dealer with your VIN.

## STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
