cardog.app/tools/recalls/genesis/gv80/2026

1 recall listed by Transport Canada for this model year

Lights and instruments

2026008 15 Jan 2026

Issue: On certain vehicles, a software problem could cause the instrument panel cluster and audio/video/navigation displays to reboot while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, warning lights and malfunction tell-tales. Note: For the GV70 model, this recall affects both gas and EV (electric) models. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: To reduce the safety risk, Genesis advises you to disable the HD radio feature while driving until the recall repairs have been completed. Genesis will notify owners in writing and send a wireless over-the-air software update to eligible vehicles to update the audio/video/navigation software. Alternatively, you may schedule an appointment to have the update performed at a Genesis dealership.

Listed for the model year, not checked against your VIN. Genesis confirms which apply.

Check your VIN with Genesis Canada or call a Genesis dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same model year, 9 live listings, as of 27 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 27 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
