3 recalls listed by Transport Canada for this model year

Engine 2021040 1 Feb 2021

Issue: Kia Canada is conducting a Product Improvement Campaign that provides an update to the engine control module to detect potential problems before an engine fails. An engine failure could cause a sudden loss of power with an inability to restart. Note: This only affects vehicles equipped with a 2.4 L MPI engine. Safety Risk: A sudden loss of engine power could increase the risk of an accident. An engine failure could also create the risk of a fire. Corrective Actions: Kia will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to update the software for the engine control module. Note: Kia recommends that you should always follow the correct vehicle maintenance schedule, which is printed in the Owner's Manual. If you experience unusual engine noise, reduced power, or a check engine/oil warning light, Kia advises you to immediately visit a Kia dealership to have your vehicle diagnosed.

Airbag 2018301 8 Jun 2018

On certain gasoline and hybrid engine vehicles, the circuits within the airbag control unit may become damaged. This could cause the airbags and seat belt pretensioners to not deploy in certain collisions where deployment is warranted, which could increase the risk of injury to vehicle occupants. Correction: Dealers will install a wire harness kit between the ACU connector and vehicle harness connector as necessary. Note: This recall does not affect the 2013 model year Optima Hybrid.

Electrical 2013324 25 Sep 2013

On certain vehicles, the stop lamp switch may fail and cause intermittent operation of the brake lights. Failure of the brake lights to illuminate when the brake pedal is depressed could result in a crash causing property damage and/or personal injury. Correction: Dealers will replace the switch. Note: This is an expansion of recall 2013-098.

Listed for the model year, not checked against your VIN. Kia confirms which apply.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 4 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
