Lights and instruments

2025708 19 Dec 2025

Issue: On certain vehicles, the tow hitch harness control module software could cause the instrument cluster to reboot while driving. If this happens, you may not be able to see certain information about the vehicle, including the speedometer, warnings, and tell-tales. Note: This recall only affects vehicles equipped with a 4.2-in screen and a Genuine Kia tow hitch harness. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: Kia will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the tow hitch harness control module.

Label

2024549 15 Aug 2024

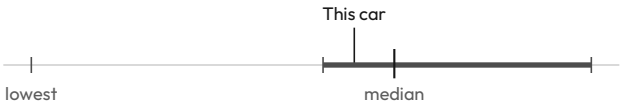

Issue: On certain vehicles, the compliance label may be missing information in French. The words listed on the label for "Tires", "Rims", "Front" and "Rear" appear in English only, when they should be listed as "Tires/Pneus", "Rims/Jantes", "Front/Avant" and "Rear/Arriere". Canadian regulations require this information to be listed on the label in both English and French. Safety Risk: These small errors do not affect vehicle safety. Corrective Actions: This is not a recall. Kia has corrected the compliance label for all new vehicles.
