Body	Sport Utility Vehicle	Plant	Cat Hai Town, Haiphong, Vietnam

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/vinfast/vf-8/2023

4 recalls listed by Transport Canada for this model year

Electrical	2026038	30 Jan 2026
Issue: On certain vehicles, a software problem could cause the electronic parking pawl (EPP) to be released on its own. Additionally, the electronic parking brake (EPB) wiring harness could become damaged and/or corroded. If both issues happen at the same time, the vehicle could roll away when it's parked. Safety Risk: A parked vehicle that rolls away could create the risk of an injury or a crash. Corrective Actions: To reduce the safety risk, VinFast recommends parking the vehicle on a flat surface until the recall repairs have been completed. VinFast will notify owners by email and advise you to take your vehicle to a VinFast authorized service center to update the vehicle software. The service center will also inspect and repair or replace the EPB wiring harness, as necessary.		
Other	2025517	26 Sep 2025
Issue: Under certain conditions, the lane keeping assist (LKA) feature of the advanced driver assistance system (ADAS) may not work properly. As a result, the steering wheel could move unexpectedly and/or the steering wheel movements may be difficult to override. Safety Risk: An advanced driver assistance system that doesn't work properly could increase the risk of a crash if the driver doesn't intervene. Corrective Actions: VinFast reminds that LKA is only an ADAS feature, and that the driver must pay attention and be ready to take control at all times when the feature is engaged. VinFast will notify owners by email and advise you to take your vehicle to a VinFast authorized service center to update the ADAS software.		
Airbag	2025006	8 Jan 2025
Issue: On certain vehicles, the center airbag in the driver's seat may not deploy properly in certain collisions. Safety Risk: An airbag that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: VinFast will notify owners in writing and advise you to take your vehicle to a dealership to replace the center airbag in the driver's seat.		

Airbag

2024293 24 May 2024

Issue: On certain vehicles, the wrong airbags may have been installed during production. As a result, the airbags would not inflate in a crash.
 Note: This issue doesn't affect the driver-front airbag. Safety Risk: An airbag that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: VinFast will notify owners in writing and advise you to take your vehicle to a VinFast service center to replace the airbags, as necessary.

Listed for the model year, not checked against your VIN. VinFast confirms which apply.

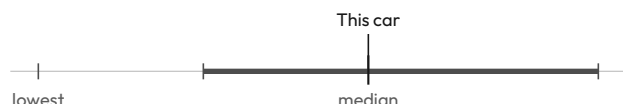

Check your VIN with VinFast Canada or call a VinFast dealer with your VIN.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 3 live listings, as of 27 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 27 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
